PROFILE SUMMARY

Full-Stack Developer & AI Engineer in the making. Shipped 6+ production-ready apps — intelligent healthcare assistants, SaaS platforms, and event management systems — with 695+ GitHub contributions and counting. Fluent in React, Next.js, TypeScript, FastAPI & LLM pipelines. Moves at startup speed using modern AI-assisted development workflows.

I don't just learn tech — I ship it.

EDUCATION

SRM Institute of Science and Technology

Chennai, India | 2024 – 2028

B.Tech – Computer Science & Engineering, Specialization: Artificial Intelligence & Machine Learning

CGPA: 8.7 / 10.0 (2nd Year, currently pursuing)

Velammal Vidhyashram

2022 – 2024

Higher Secondary Certificate (12th Standard) | Percentage: 68%

Velammal Vidhyashram

2021 – 2022

Secondary School Certificate (10th Standard) | Percentage: 63%

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C, C++

Frontend: React.js, Next.js, React Native, Vite, Tailwind CSS

Backend: FastAPI, Flask, REST API design, Supabase (PostgreSQL + Auth + Storage)

AI / LLM: LLM integration (LLaMA via Ollama), RAG pipelines, Azure AI, ElevenLabs TTS, Prompt Engineering

AI Dev Tools: Claude (Anthropic), Cursor IDE, OpenAI Codex, Claude Code, Antigravity — proficient in AI-assisted development workflows

Tools & Platforms: Git & GitHub, Vercel, Razorpay, Google OAuth, Daily.co, Linux basics

Currently Learning: Node.js / Express, Docker, System Design, DSA, Core ML

PROJECTS

SIMS SmartAssist — AI Hospital Chatbot

Next.js · FastAPI · Supabase · ElevenLabs · Daily.co

AI-powered hospital assistant with multilingual support, TTS, and video consultations

- Built patient-facing multilingual chatbot using LLaMA + RAG pipeline for hospital knowledge Q&A
- Integrated ElevenLabs TTS for voice output and Daily.co for real-time video consultation rooms
- Designed admin dashboard for managing appointments, patient queries, and analytics

Ascendry — Personal SaaS Platform

Next.js · Python · Supabase · Razorpay

AI-driven SaaS platform for digital products and client project delivery ascendry.vercel.app/

- Architected full SaaS system with subscription billing via Razorpay and user auth via Supabase
- Integrated AI features to power client-facing digital tools and automated delivery workflows
- Publicly deployed and maintained — GitHub starred project

IELTS AI Platform — Exam Preparation Tool

Azure AI · Next.js · FastAPI · Supabase

Full AI-powered IELTS prep platform with writing feedback, speaking practice & study planning

- Implemented writing module with AI band score estimation powered by Azure AI services
- Built speaking practice module with audio recording, transcription, and AI-based scoring
- Integrated personalized study planner driven by user performance analytics in Supabase

VDP Days (Clubsphere) — College Event Management

React · Vite · Supabase · Razorpay · Google OAuth

Full-featured event management platform for college cultural events vdpclubs.vercel.app/

- Shipped 331 commits across 4 branches with 285+ Vercel production deployments — most production-hardened project
- Built complete event lifecycle: creation, registration, QR ticket generation, and real-time entry verification
- Integrated Razorpay for ticket payments and Google OAuth for student login — 2 GitHub stars

Loopify — Personalized Habit Tracker

React Native · Supabase

Cross-platform mobile app for tracking habits, goals, and personal activities

- Built web + mobile experience; users can define, log, and analyze custom trackers
- Released v1.0.0 as a public GitHub release with structured versioning (40 commits across 6 versions)

Exodus Music Ministry — Church Platform

React · Vite · Tailwind CSS · Supabase

Official ministry website — events, worship team, media gallery & prayer requests exodus-music-ministry.vercel.app/

- Delivered complete real-world client website with event listings, team profiles, and media gallery
- Maintained over 63 commits with continuous production updates — live and actively used

Personal Developer Portfolio

Next.js · TypeScript · Tailwind CSS

Live portfolio showcasing all projects, skills, and contact lenny3.vercel.app/

- Built with Next.js + TypeScript, deployed on Vercel with 11 production deployments

GITHUB ACTIVITY

55 public repositories · 695 total contributions · 468 contributions in last year · 397 commits

- Primary languages: JavaScript (76%), TypeScript (10%), Python, CSS — reflecting real production usage
- Active across 40+ repositories; projects span AI chatbots, SaaS tools, event platforms, and mobile apps

ADDITIONAL

- Freelance development via Fiverr — client websites and SaaS micro-tools
- Experience with Google AdSense and Razorpay integration across personal products
- GitHub Developer Program Member · GitHub Pro
- Interests: AI Engineering, Ethical Hacking, Open Source, SaaS Product Building
